

AMENDMENTS TO THE SPECIFICATION

At page 1, before the first full paragraph (at line 3), add the following headings:

BACKGROUND OF THE INVENTION

1. Field of the Invention

At page 1, before the second full paragraph (at line 7), add the following heading:

2. Description of the Related Art

At page 4, before the second full paragraph (at line 4), add the following heading:

SUMMARY OF THE INVENTION

At page 5, before the first full paragraph (at line 3), add the following heading:

BRIEF DESCRIPTION OF THE DRAWINGS

At page 5, before the second full paragraph (at line 12), add the following heading:

DETAILED DESCRIPTION OF EXEMPLARY EMBODIMENTS

At page 4, replace the second full paragraph with the following amended paragraph:

Consequently, one embodiment of the invention proposes An aspect of the present invention is to provide a receiver for a spread-spectrum telecommunication system, the receiver including:

- a first receiver with at least two demodulation channels and a first combiner receiving the demodulated signals supplied by the demodulation channels;

- a second receiver with at least two demodulation channels and a second combiner receiving the demodulated signals supplied by the demodulation channels and

- a third combiner receiving the signals supplied by the first and second combiners.

At page 5, replace the first full paragraph with the following amended paragraph:

~~Other features~~ Embodiments and advantages of the invention will now be described in greater detail with reference to non-limiting embodiments depicted in the drawings ~~become apparent on reading the following description of embodiments of the invention, which is given by way of example and with reference to the drawings, in which:~~

- figure 1 is a graph of signals received by a terminal;
- figure 2 is a block diagram of one embodiment of a terminal of the invention;
- figure 3 is a block diagram of a recombination window of one embodiment of the invention.
